

Government Capability Statement

Tri-State Laser Cleaning LLC d/b/a Precision Dry Ice Cleaning

NEW JERSEY / NEW YORK / PENNSYLVANIA / DELAWARE

Mobile dry ice cleaning project reviews for public agencies, municipal departments, military facilities, and prime contractors. Define the equipment, deposit, retained surfaces, and acceptance criteria before scheduling.

CORE CAPABILITIES

Equipment and fleet cleaning

Selected machinery, engine-bay, undercarriage, and heavy-equipment surfaces.

Facility and tooling applications

Selected mechanical equipment, molds, fixtures, and defense manufacturing tooling.

Planned maintenance

Application tests, one-time projects, shutdown scopes, and recurring maintenance reviews.

Defined work packages

Asset lists, surface limits, site coordination, test criteria, and agreed completion records.

START WITH THE SCOPE

Identify the deposit, retained surface, site requirements, and required result. Where suitability needs confirmation, define a representative test area and inspection criteria.

CONTRACTING IDENTIFIERS
